**No future
without schooling**

The **China Education Help Project (CEHP)** organizes Sponsorships for children with special needs. The aim is to provide an education, so that the supported child has the possibility of an independent future being able to take it's destiny in his own hands.

Thomas Fehl, *consultant chairman of CEHP e.V.*

Huaxun Tan, *former consul vice chairman of CEHP e.V.*

Sponsorship

Give a child a future with just a few Euro.

Poverty exists in every country and in Germany also. Social engagements are important in many places and in many forms.

Seit Jahren engagieren wir uns als Privatpersonen in sozialen Werken. As private people we have been involved in social projects in Germany for many years. Now, we want to help children in other countries.

Where poverty prevails it is possible to make a big difference with just a little support. A sponsorship or a donation can make the difference in someone's life.

We insure that every Euro is used for this purpose

We work voluntarily with no extra costs. The donations are for the children and we believe they should reach them in the full amount.

We have a concept of support which ensures no financial loss despite the considerable distance to a Chinese village. Please read one paper concerning the structure of our organisation: www.cehp.de.

The details of the child to be supported are sent after signing the contract. We take into consideration the wish to support a "young child" (primary school) or a "teenager" (secondary school as this of course influences the time scale of the sponsorship).

A sponsorship means taking responsibility. The child knows who their sponsors are and will feel a bond with the sponsor, be thankful for that.

We assist in any form of contact wishes with the child.

Schoolproject

A special school for deaf children in Leling.

In Leling, Dezhou District in the province of Shandong we would like to finance a new school for deaf children. We are collecting donations for this purpose.

A school for deaf children already exists in an industrial yard, founded by Shumei Jia, a mother of a deaf child through private initiative.

This school is a registered school for children with special needs. The children come from the wider region up to a distance of 400 km. The complete education to general certificate and are able to take a professional training. 12 teachers teach 59 children in 6 classes under cramped conditions. The school has minimal material.

We want to change this

and collect money to build a new school. The grounds have been provided by the state. The school will build in two phases for over 200 deaf children. 340.000 Euro are needed of which 70.000 have already been donated.

The children learn a handwork or artistic skill. Many of them are looking for a sponsorship.

Help this project so that these children can reach the potential despite their handicap and lead their own independent lives in the future.

Shumei Jia
Headmistress of the school for deaf children in Leling

Yes,

I want to support a child:

- A Primaryschoolkid (€ 10/monthly)
- A Schoolkid from the School for deaf children (€ 30 / monthly)
- Help with a donation, Euro _____

Please send the details of the child I support.
